

Connect Parent Group

An Attachment-Based Program to Support Parents & Caregivers

Do you ever feel that your pre-teen doesn't listen to you?
Do you sometimes even feel pushed away? Do parents matter?

Actually, there is very good evidence that strong relationships with parents protect youth from risk during adolescence and help them thrive!
We call that ATTACHMENT!

Connect is a FREE 10-week program to support parents of pre-teens (ages 10-14). Parents meet in groups of 10-16 with two trained group leaders.

Wednesdays starting September 26
until December 5, 2018

No group on October 31 and November 21

6:00 pm – 7:30 pm

Lang Room at City Hall, 10005 102 St, Fort Saskatchewan

Co-developed over the last 10 years by the Maples Adolescent Treatment Centre and Simon Fraser University, the program focuses on the core components of secure attachment to promote children's social, emotional, and behavioural adjustment. Connect© helps caregivers understand basic attachment concepts which can then be applied across a broad range of situations and relational concepts.

Each session provides parents with an attachment perspective on parent-child relationships and adolescent development. Parents watch role-plays, do exercises and discuss ways of responding to challenging behaviour and problems. After each session, parents receive handouts with key points to remember when applying the principles to their own parent-child relationships.

Call Jennifer at **780.997.4164** to register.

Onsite child care will be provided. Limited spaces available.

Light supper will be provided.
