Our main objective and mandate, as a school, is to prepare students to reach their full potential in all areas of human endeavor. We feel some students can best maintain and improve academic standing through a combined educational experience that has emphasis in academics, the arts and athletics.

We are a Catholic community committed to developing educational opportunities in the context of Gospel values, where students' gifts and talents are celebrated and nurtured through lifelong spiritual and personal experiences.

We believe:

- That a quality education is a continuing process that develops the whole person in an environment, which encourages success.

- That education is a lifelong journey during which excellence is actively pursued.
- That Jesus Christ and his teachings are the foundation and core of our Catholic school division.
